TRIP THROUGH MAINE

President Roosevelt Views Beautiful Scenery and Meets People.

VISITS BLAINE'S FORMER SANCTUM.

Train Stops at Various Places Where Brief Speeches Are Made to the Assembled Crowds—Incidents of Journey.

Bangor, Me., Aug. 28.—The special train bearing the president and his party arrived here at 12 o'clock, on schedule time. The president was met at the train by President Beal of the Eastern Maine State Fair association, Senator Hale, Congressmen Littlefield, Powers and others. The party immediately started for a drive about the city.

The special train stopped at a number of places where President Roosevelt addressed the crowds briefly.

At Augusta he was taken for a drive about the city and shown the beauties of the scenery along the Kennebec river. The president was the guest of Governor Hill during the night. The governor's house has become historic because of the fact that it was the home of James G. Blaine, and the president occupied the identical bedroom used by that statesman.

He also visited the Kennebec Journal, of which Mr. Blaine was formerly editor and saw Blaine's old desk.

Troops Are Hooted.

Tamaqua, Pa., Aug. 28.—The fact that striking miners in Panther Creek valley are in a very ugly mood was shown when several of the poles of the trolley lines which runs from this place to Summit Hill were chopped down and the wires cut. This was probably done to prevent troops from being taken from Manilla park, where they are encamped, to Lansford and Summit Hill. Major Gearhart outwitted the strikers, however, by taking two companies of soldiers to Summit Hill an hour before they were expected. In Lansford, Summit Hill and Coaldale the detachments of soldiers that were sent out at daybreak to preserve order and protect non-union men were greeted by large crowds of strikers who hooted them and called them names. At Coaldale the soldiers were compelled to get off the trains and force the mob back from the tracks.

The Mueller Heirs.

Prague, Bohemia, Aug. 28.—There is much local interest in the investigation being made by the United States consul, Ethelbert Watts, into the numerous claims for shares of the estate of Johann Mueller, an Austrian subject who died in Minnesota during the year 1900. Mueller left a farm believed to be worthless, but which is now reported here as worth \$5,000,000 in consequence of the discovery of minerals on the property. Among the claimants are an alleged deserted widow and children.

Indians Trespass.

Phoenix, A. T., Aug. 28.—For some months past Apache Indians have been securing permission to leave the reservation and have been gathering at the abandoned Fort McDowell reservation, until now there are about 300 there. Settlers in that vicinity are complaining of their trespassing on melon and grain fields and their threatening language when driven out. Settlers have petitioned the governor to aid in securing their return to the reservation, as they fear trouble.

Klondike Washery Burned.

Hazleton, Pa., Aug. 28.—The Klondike washery at Tresckow, owned and operated by Joseph Seager of this place, was destroyed by fire of unknown origin, causing a loss of \$7,000, partly covered by insurance. The washery suspended operations when the strike began, but resumed two weeks ago. Strikers raided the plant and closed it on Tuesday of last week and two attempts to resume this week were frustrated by the strikers.

Applicants For Work.

Wilkesbarre, Pa., Aug. 28.—President Mitchell of the United Mine Workers said that he had no comment to make on the meeting of coal operators held at the office of J. P. Morgan in New York. A large number of men are supposed to have gone to work in the Dorrance colliery of the Lehigh Valley Coal company. At the office of the company it was said that applications were considered for several hundred new men.

Galveston, Tex., Aug. 28.—General Manager Nixon of the Gulf, Colorado and Santa Fe states that the strike of the machinists in the company's shops at Cleburne and other points has been declared off. About 700 men are involved.

SMITH'S EXPERIENCE.

A Railroad Contractor Escapes From Ecuador on a British Boat.

New York, Aug. 28.—On the British steamship Colombia, Jackson Smith, American resident of Guayaquil, Ecuador, who had made himself persona non grata with the Ecuadorian authorities, was enabled to escape from Guayaquil. Smith was taken to Panama whence he proceeded to New York. Smith was a sub-contractor on the railroad to connect Guayaquil with Quito, the capital, up in the Andes. He is said to have accused a prominent citizen of drunkenness, was arrested for libel and fined \$1,500 in gold. Smith refused to pay the fine, and having been placed in jail, United States Consul Leon demanded his release. When the case was reported to Washington the cruiser Philadelphia was sent to Guayaquil, but the consul was relieved.

When the Colombia reached Guayaquil on the way up the coast, a small boat containing Smith and a friend met the steamboat just before dawn and the men were allowed to climb aboard. A few hours later the captain of the port went out to the Colombia for the purpose of taking Smith ashore, but he had hidden in a safe place and was not apprehended.

Mr. Smith formerly was assistant general passenger agent of the Louisville and Nashville railroad, headquarters in Cincinnati.

Arrival of Chinese Crew.

San Francisco, Aug. 28.—The 250 Chinese intended for the crew of the Pacific Mail steamer Korea, arrived here on the steamer Gaelic. Collector of Customs Stratton has again notified the steamship company that the Chinese must be detained on the Gaelic and not even be allowed to enter into the detention shed, pending a decision by the treasury department and the commissioner general of immigration. The sailors' union of the Pacific coast has entered a strong protest against the transfer of these Chinese to the Korea. The union contends that the Chinese cannot be transferred to the Korea without bringing them ashore to be signed before the United States shipping commissioner, and that the act of bringing them ashore would constitute a violation of the Chinese exclusion act.

Poor Weather For Rice

Yokohama, Aug. 28.—The extraordinary weather this year in Japan makes the prospects of a good rice crop—the main food of the people—very gloomy. The thermometer has hardly reached 90 degrees in the open and has been generally dodging around 65 to 75 degrees. Heavy rain has fallen, culminating in typhoons on July 10 and 11. The wind blew at hurricane velocity, the river rose six and eight feet, embankments were carried away, whole villages were inundated, and the reports of loss of life and damage to property are daily growing. Luckily, the rain which is so dangerous here fell at the right time in Korea. A magnificent crop of barley which has already been harvested, together with rice fields, will put Koreans in an enviable position.

Politics Defined.

Washington, Aug. 28.—The part which postal employees are to be permitted to take in a political campaign is outlined in the following instructions which Acting Postmaster General Wayne has addressed to a postmaster who sent a letter of inquiry: "In reply to your letter you are informed that you are not prohibited from joining a political club, or making voluntary financial contributions outside of a government office or building, nor from acting as a delegate to a county, state or congressional convention. You should not, however, serve as chairman of a state or county committee, nor take active part in conducting a political convention, nor make yourself unduly prominent in local matters."

Russia Troops to be Withdrawn.

Tokio, Aug. 28.—M. Pavloff, Russian minister to Korea, who has been visiting Japan, has returned to Seoul. Regarding the question of the evacuation by Russia of Manchuria in official quarters, information has been received to the effect that preparations for evacuation have begun in Kinchow, midway between Shanghai-Kwan and New Chwang. In the course of six months after the signature of the Manchurian agreement, April 8, the Russian troops from the southwestern portion of the province of Mukden as far as the Lias river are to be withdrawn and the railway is to be restored at the same time.

Grand Rapids, Mich., Aug. 28.—Two of the opening session of the sixth annual of American Municipalities in the exposition building. An address of welcome by Mayor Palmer of Grand Rapids opened the session. This was followed by an address by President Charles S. Ashley, mayor of New Bedford, Mass.

STEEL TRUST'S REPLY.

Answer to Complaint of Hodge and Others on Proposed Changes.

NEED OF THE MONEY IS EXPLAINED.

The Document Emphasizes the Point That the Conversion Plan Would Reduce the Fixed Charges of the Company.

Trenton, N. J., Aug. 28.—The United States steel corporation filed in the court of chancery an answer to the amended bill of complaint of J. Aspinwall Hodge, Bernard Smith and William H. Curtiss to restrain the proposed conversion of \$200,000,000 seven per cent preferred stock into \$200,000,000 five per cent second mortgage bonds. The answer denies that the books of the corporation show Curtiss to be the owner of any stocks of the concern. Smith, it is averred, did not own any stock of record until June 24, 1902, after the plan of conversion had been adopted, and that the stock now recorded in Smith's name was voted in favor of the plan.

Hodge, it is admitted, owns 100 shares of stock, but it is alleged that he was not present at the stockholders' meeting when the plan was submitted and that his stock was not voted either by himself or by proxy. It is denied that 15 or more of the directors of the Steel corporation are members of the syndicate through the preferred stock was to be converted into bonds. It is admitted that some of the directors are members of the syndicate, but that this fact was communicated to every stockholder in the circular of April 17, 1902, in the following words:

"To further the success of the plan there has been formed a syndicate including some directors who will receive four-fifths of the four per cent commission to be paid under the contract with J. P. Morgan & Co., mentioned in the notice of stockholders' meeting."

The answer says the directors in the syndicate are a minority in the board of directors, but that they are large stockholders and favored the conversion plan, because they believed it would be advantageous to them as stockholders. It is denied that any stockholders had been offered special terms in connection with converting their preferred stock into bonds in order to secure their affirmative votes for the plan. It is denied that the \$50,000,000 of additional capital which it proposed to obtain was needed for purposes that were chargeable to the earnings of the company.

The answer then takes up the line of argument made in the affidavit of George W. Perkins, chairman of the finance committee, filed last week, in which Mr. Perkins claimed that this additional \$50,000,000 was needed to pay for improvements and to give the company a larger surplus to permit it to do a cash business and be protected against a money stringency in the event of a business depression. The answer says the earnings of the corporation for the year ending March 31, 1902, were \$11,603,054; for the month of April, 1902, \$12,320,766; May, \$13,20,390; June, \$12,220,362; July, estimated, \$11,900,000, or at the rate of \$150,000,000 a year. An inventory is filed to show that the company's property is worth \$1,400,000,000 more than the combined par value of the preferred and common stocks.

It is stated also that the company's surplus is \$65,000,000. The answer emphasizes the point raised by Mr. Perkins to the effect that the conversion plan would reduce the fixed charges of the company and be advantageous to all stockholders, both preferred and common.

Favors Arbitration.

Pittsburg, Aug. 28.—Justice Shiras of the United States supreme court, who has just arrived in Pittsburg from a long vacation spent along the northern shores of Lake Superior, refuses to discuss his reported retirement from the bench further than to say that President Roosevelt would be the first person to learn of it and that he had not received the announcement yet. On the subject of the anthracite coal strike Justice Shiras said: "Arbitration is the logical method of settling labor troubles such as this one, which affects the general prosperity and comfort of a great section of the country. The method and enforcement of this arbitration is a subject for the lawmakers of the nation; but arbitration itself is logical."

Sacramento, Cal., Aug. 28.—When the Republican state convention reconvened, balloting for governor was resumed. The fourth ballot resulted: Gage 339 1/2, Flint 274, Pardee 137 1/2, Hayes 57, Edson 23.

CONVICT O'BRIEN

Vows Death Upon a Deputy Sheriff For Convicting Him.

Butte, Mont., Aug. 28.—With officials of the state penitentiary upon his trail, assisted by bloodhounds, Convict Tom O'Brien, who last Friday made a daring escape from the state prison, has sent a communication to the Miner, pleading for a public statement of his alleged crime and vowing the death of Deputy Sheriff Dave Morgan, whose alleged perjured testimony, the convict declares, sent him to prison and wrecked his home. The document received by the Miner bears the post mark of Anaconda. The writer dates his communication from a mountain in the surrounding hills of Anaconda and says that he wrote his story behind a rock, dividing his time between his Winchester and his pen.

The communication is a literary freak and no question as to its authenticity, as the handwriting has been fully identified by the warden of the penitentiary and others acquainted with the criminal. O'Brien declares his sole object in escaping from the prison is to kill Deputy Sheriff Morgan. O'Brien was sent up for robbery in 1901.

Details of Hoadley's Death.

Rochester, N. Y., Aug. 28.—Some additional details regarding the death of ex-Governor George Hoadley of Ohio, which occurred at Watkins, N. Y., Tuesday evening, have reached here. The ex-governor, who since 1887 has been practicing law in New York city, went to a sanitarium at Watkins some weeks ago with the hope that he might regain some of his lost strength. Up to two weeks ago he was able to be about the grounds of the sanitarium, but his age counted against him and his strength gradually failing, he was forced to take to his bed from which he did not again rise. The remains, accompanied by the family, will be shipped to Cincinnati.

Not For Sale.

Peoria, Ills., Aug. 28.—Peoria's two monster independent distilling industries are not for sale, and will not be absorbed by the recently reorganized whisky trust. For weeks past the press dispatches from the east have been proclaiming that the deals for the purchase of these plants by the big combine were practically closed and that within a very short time they would be transferred and the visit of Angelo Myers, president of the trust, to this city last week gave a color to the rumor. Corning & Co. were approached and the negotiations were broken off. The Clarke Distilling company refused to enter any combine.

Fining Clerks.

Milwaukee, Aug. 28.—The National Association of Postmasters' convention discussed two topics of the program—local inspector for large offices and suspension of clerks. On the question of the suspension of clerks who would not pay their debts, a letter was read from J. E. Shidler, assistant postmaster at Indianapolis. Mr. Shidler advocated fining instead of suspension, where the clerks are exceptionally efficient. The suggestion met the approval of the delegates.

Inquest Held.

Springfield, O., Aug. 28.—The coroner held an inquest on the body of John Waldron, who was shot and killed by his brother-in-law, Justice Anderson, aged 12. The boy had an old gun which was supposed to be useless. He playfully pointed it at Waldron saying he would frighten him. The gun was discharged and the contents struck Waldron's head, killing him instantly.

Pardee Nominated.

Sacramento, Cal., Aug. 28.—The Republican state convention nominated George C. Pardee of Oakland for governor on the sixth ballot. The Gagmen, finding they could not nominate their man, threw their strength to Pardee. The last ballot stood: Gage 13, Pardee 515, Flint 240 1/2, Hayes 47, Edson 12. Necessary to a choice 416.

Furnished Bonds.

Omaha, Aug. 28.—When the case of President Horace Burt of the Union Pacific, charged with restricting the liberty of strike breakers, was called in the police court, his attorneys, Edison Rich and Charles Dundy, furnished a bond of \$300 on each of the 10 complaints, and the case was set for trial on Sept. 3.

Mount Pelee In Action.

St. Thomas, D. W. I., Aug. 28.—A dispatch received here from the island of Dominica says: "Since 2 p. m. Tuesday prolonged noises in quick succession, have been heard from the southward. There is every indication that Mount Pelee is violently erupting." Efforts made to communicate by cable direct with the island of Martinique have proved unsuccessful.

FLOODGATES OPENED.

Senate Decides That Members Have Right to Introduce Bills.

LEGISLATURE ADJOURS FOR A WEEK.

Series of Public Hearings on the Municipal Code Bill Arranged For by the House Committee.

Columbus, O., Aug. 28.—The session of the senate was given over to a discussion of two propositions. One was on the reference of the code bill, after its second reading, to the senate as a committee of the whole, and the other was on Senator Longworth's motion, the consideration of which was carried over from Tuesday, to reject the arc light bill offered by Senator Thompson, and thus hold the session down to the consideration of the code bill and the repeal of the Royer act.

A tie vote resulted on the reference question and Lieutenant Governor Gordon, who has a vote in case of a tie, decided in favor of referring the code bill to a committee of the whole. This means that the code bill will be taken up and considered section by section, and that public hearing will be granted in accordance with the program announced by Senator Longworth, though it remains to be ratified by the senate.

The Longworth motion to reject the Thompson bill provoked another lively discussion, and was lost by a vote of 13 to 16. This result opens the door to general legislation and it is expected that a flood of bills will be introduced. It is almost certain that bills bearing upon the subjects of school legislation, a revision of the registration laws, and the enactment of a general salary law for county officials will now be introduced.

Senator Longworth then snatched a small victory from the jaws of defeat by moving that inasmuch as the bill had to do with a municipal power, it be referred with the code bill to the committee of the whole, as Senator Harding had suggested early in the debate and this was unanimously agreed to.

The senate will be in session on Thursday. The senate concurred in the adoption of the Stagg joint resolution providing for adjournment on Friday at 11 a. m., till Thursday, Sept. 4, at 4 o'clock. The action is taken to enable the Democratic members an opportunity to attend their convention at Sandusky next week.

In the House.

After a brief session the house adjourned till Friday.

Three bills were introduced, one by Mr. Denune of Franklin, to regulate milk inspections and the state board of commerce code bill by Mr. Chapman of Montgomery county. Mr. York also introduced a code bill.

Speaker McKinnon appointed 23 members, of whom 8 are Democrats, as a special committee to consider the code bill. Mr. Comings of Lorain was elected chairman.

The subcommittee appointed by the special committee of the house held a meeting after the committee adjourned and formulated a program for the hearings. It indicates that the committee has little idea of reporting the bill back to the house for several weeks, as hearings are arranged until Sept. 10, and the program provides for the assignment of further sessions at that time.

Several resolutions were introduced relative to the code bill.

Bowen's Message.

Washington, Aug. 28.—A cablegram was received at the state department from United States Minister Bowen at Caracas, stating that he had authorized Commander Rodgers of the United States ship Marietta to leave La Guaira and go to Curacao in order to give the men shore leave for a time. This action on the part of Minister Bowen indicates that he has not changed his mind as to the propriety of reducing the United States naval representation in Venezuelan waters, notwithstanding the reports of the bombardment of Ciudad Bolivar, and considerable destruction of property in which foreigners are supposedly interested.

Alleged Train Wreckers.

Toccoa, Ga., Aug. 28.—Officials of DeKalb county, S. C., have taken into custody three men, Henry Love, John Howard and Thomas Howard, whom they charge are responsible for the wreck of the Southern railway's limited near Toccoa last Monday. The results of the investigation of the accident show that the train was deliberately derailed. Prints of wrecking tools have been discovered upon the rails.

WITH President Roosevelt talking about how to curb the trusts and Senator Hanna declaring "there ain't no trusts," the Republicans don't seem to be pulling together.

The only way to strike a blow at the trusts is to vote for the party whose campaign coffers are not laden with trust contributions and which the trusts force their men to vote against every time.

The Danville Advocate thinks it must be great fun for Mr. Hanna, who some time ago announced his important discovery that "there ain't no trusts," to sit back and watch Mr. Roosevelt devising ways and means to down the fragments of his own diseased imagination.

WANTS BIG DAMAGES.

James T. Hall Sues the C. and O. and M. and B. S. Railroad, For \$10,000 For Loss of Three Fingers.

James T. Hall, through his attorneys Judge Cole and Mr. Allan D. Cole, Wednesday filed suit in the Mason Circuit Court against the C. and O. and M. and B. S. railroad companies for \$10,000 damages.

Hall is the young man who tripped on the block wires at the fair grounds while approaching a fair train Aug. 22nd and in falling had three fingers cut off by the car trucks. The alleged grounds for damages set forth in the suit are negligence on part of the companies in failing to have suitable platform for boarding trains and in failing to guard and protect the block wires and carelessly and negligently maintaining same.

THE INSTITUTE.

The Present Session is Proving a Very Helpful One to the Teachers—Discussions Wednesday.

The institute was opened on Wednesday by devotional exercises conducted by Rev. F. W. Harrop.

The subject of primary reading was taken up and discussed by Prof. Withers, many of the teachers entering heartily into the discussion.

Prof. Peterson then gave a very interesting and instructive lesson on "Inductive Studies in Browning." After a short recess, Prof. Grimes introduced Prof. S. L. Turnipseed, Superintendent of Schools in New Richmond, O. Prof. Turnipseed is a very able and popular instructor and his brilliant career as an educator has won for him an enviable reputation throughout Kentucky and Ohio. He gave some very valuable suggestions on the subject of arithmetic on which he is a specialist. Prof. Withers closed the discussion on arithmetic, bringing out in a clear and forcible manner the idea that the mind of the pupil must be trained that he may grasp the meaning of problems before beginning their solution, and that after the solution is begun his work should be characterized by systematic neatness.

WEDNESDAY AFTERNOON.

The work of the afternoon was begun by Prof. Peterson in his Inductive Study in Literature, the particular subject being from Browning's poems. The lesson was very helpful and instructive.

Special mention should be made of the beautiful music and solos which have from time to time been rendered by Miss Edith Berry. The charms of music aid very materially in producing inspiration, and the introduction of the solos and song service is a very helpful as well as a very entertaining auxiliary to institute work.

The committee appointed by the Bracken Association of Baptists to confer with the people of Rowan County relative to the construction of school buildings at Morehead and the starting of a school to be known as the Bracken Academy, has appointed trustees, a financial agent and a Building Committee to secure ground and begin work at once. The buildings will be ready by the close of the present year, and, with a suitable faculty, school will open January 1, 1903. The territory occupied by the association back of this institution embraces Rowan, Bath, Montgomery, Mason, Fleming, Robertson, Lewis, Bracken, Nicholas, and Bourbon counties.

The remains of Mr. Wm. Ross, of Fleming County, was buried at Washington yesterday. He was about sixty-five years of age, and had long been a sufferer with asthma. His first wife was Miss Lizzie Parry, daughter of the late Mr. James Parry of the county, who has been dead some years. His second wife, who was a Miss Tully of Fleming, survives him.

LABOR'S DUE

Will Not Be Begrudged in Kentucky, Governor Beckham Says.

Governor Beckham has issued the following Labor Day proclamation:

COMMONWEALTH OF KENTUCKY,
EXECUTIVE DEPARTMENT.

To all to whom these presents shall come, greeting: Whereas, The General Assembly of the Commonwealth of Kentucky, at its last session, passed an act creating a legal holiday on the 1st of September of each year to be known as Labor Day, and providing that no person shall be compelled to labor on said day by any person or corporation:

Therefore, I, J. C. W. Beckham, Governor of the commonwealth aforesaid, do hereby request a general observance of Monday, September 1, 1902, as Labor Day, by cessation from public and ordinary business as far as practicable in order that the great army of toilers in the commonwealth may have a day of rest and enjoyment.

PIPE LINE

Will be Built From the Kentucky Oil Fields To West Virginia.

BARBOURSVILLE, Ky., August 26.—Fourteen car-loads of material for a pipe line through the Kentucky oil fields have been shipped to Somerset and twenty-one car-loads are being looked for here. The line is to extend from the Wayne fields, passing through the Knox fields and intermediate wells, and extended on to West Virginia, joining the main line at a point near Clifton. The Bath fields will be connected by a branch line. The line will be constructed by the Standard. The estimated cost will be \$1,004,000.

Putting food into a diseased stomach is like putting money into a pocket with holes. The money is lost. All its value goes for nothing. When the stomach is diseased with the allied organs of digestion and nutrition, the food which is put into it is largely lost. The nutrient is not extracted from it. The body is weak and the blood impoverished.

The pocket can be mended. The stomach can be cured. That sterling medicine for the stomach and blood, Doctor Pierce's Golden Medical Discovery, acts with peculiar promptness and power over the organs of digestion and nutrition. It is a positive cure for almost all disorders of these organs, and cures also such diseases of the heart, blood, liver and other organs, as have their cause in a weak or diseased condition of the stomach.

Residence Burned.

The residence of Mr. Thomas Hays on the hill southeast of this city caught fire from a defective flue Wednesday morning and was destroyed. The family lost all their household goods, except two feather beds. It was not learned whether there was any insurance on the property.
